

The **Peer Tutoring Program** offers three different levels of support for students: (1) evening **group tutoring sessions** - weekly scheduled times during which students can meet with several tutors for their courses without an appointment; (2) daytime **drop-in hours** - weekly scheduled times during which a tutor is available during the day for anyone to "drop-in" for a particular subject, and (3) **tutoring by appointment** - students may schedule appointments with tutors by logging in to <http://albany.askonline.net> using their Blackboard username and password. Appointments must be made at least 24 hours in advance.

Organic Chemistry II – Peer Tutoring Program

Group Tutoring	Drop-In Hours	By Appointment * This list is for INSTRUCTOR USE ONLY
